
Robot Assembly Exporting

Estimated time to completion: **30 seconds**

8.2 Onshape Export

In this section, you'll learn how to use [Onshape \(https://cad.onshape.com\)](https://cad.onshape.com), a cloud-based CAD software similar to SolidWorks, to export robot assemblies into URDF. One of the key advantages of OnShape is that it allows you to use its powerful CAD tools free of charge, as long as your designs are public.

To get started, follow these steps:
