
Robot Assembly Exporting

Estimated time to completion: **2 minutes**

8.7 Step 5: Export

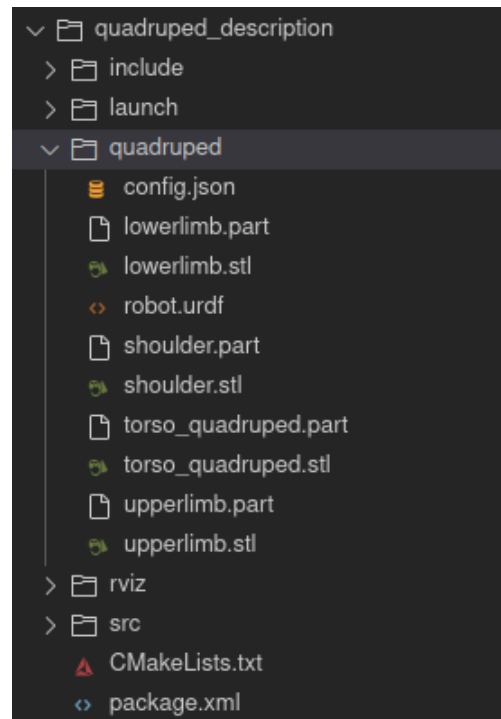

- Now you are ready to export.
- Execute the following commands:

► Execute in WebShell 1

```
In [ ]: cd ~/ros2_ws/src/quadruped_description
# Execute the export
onshape-to-robot quadruped
```

- The command `Onshape-to-robot quadruped` should have generated files similar to the following:

- Among them, you should have a file named `robot.urdf`.
